International Conference

Societal and technological determinants of security:

Adaptive strategies for information and cyber challenges

24 May 2024, Warsaw (online)

Security and Defence Quarterly, the Security Education Department of the National Security Faculty at War Studies University, Poland, and Dumlupınar University, Turkey, are pleased to announce the International Conference *Societal and technological determinants of security: Adaptive strategies for information and cyber challenges* taking place online on 24 May 2024.

Today cyber threats pose a significant risk to national security, military capabilities, societal stability, and international cooperation. This imposes the evolution of traditional security paradigm. No longer does it focus on solely on physical threats, but it has evolved to new approaches that address more complex issues of cyber threats. We welcome original research papers that address topics related to the transition from traditional security models to more comprehensive strategies addressing the complexities of information and cyber threats. We seek a wide range of potential contributions including, but not limited to: analyses of how non-state actors and non-physical threats are reshaping our understanding of security in the digital context, with a particular focus on information infrastructure and data integrity; studies of the multi-dimensional aspects of cybersecurity as a strategic concern; research on the cyber attacks on critical infrastructure, the spread of dis- and misinformation, and the role of technology in military, social and political spheres. We also invite papers that discuss the interconnected nature of modern information systems, the ethical and legal dilemmas posed by cybersecurity measures, and the need for international cooperation in this domain. We welcome to submit empirical studies, theoretical analyses, and case studies that offer insights into the challenges and strategies for managing cybersecurity in various sectors and areas.

The Conference will be opened with a keynote speech given by Professor Rubén Arcos from Rey Juan Carlos University, Spain.

The event will be held online via MS Teams platform. A link to the event will be sent to all registered attendees by email.

The conference is free of charge.

Please register by 6 May 2024.

Registration form: https://forms.office.com/e/40vvAuTSyG

We expect presentations referring to both current and future security challenges with a special focus on information and cyber threats. The presentation should last up to 20 minutes. The organizers reserve the right not to accept the application.

Papers may be submitted to *Security and Defence Quarterly*, a scholarly journal dedicated to advancing knowledge and understanding of theory, research, and practice in the field of security and defence. All authors must follow the Security and Defence "Guide for Authors". To submit a manuscript, please go to: https://securityanddefence.pl/ and select this Special Issue "Societal and technological determinants of security". All submissions are subject to standard peer review, revision, and re-submission processes.

Important dates:

Registration: 6 May 2024

Conference date: 24 May 2024

Paper submission: 31 May 2024

Scientific committee

prof. Rubén Arcos, Rey Juan Carlos University, Spain

prof. Dogan Aydin, Dumlupınar University, Turkey

prof. Bert Chapman, Purdue University, USA

prof. dr hab. Jarosław Gryz, War Studies University, Poland

prof. dr hab. Beata Łaciak, War Studies University, Poland

prof. Panagiotis Palaios, Deree. The American College of Greece

prof. Andrej Skolkay, The School of Communication and Media, Bratislava, Slovakia

prof. George Andrew Zombanakis, Deree. The American College of Greece

płk dr hab. Andrzej Soboń, War Studies University, Poland

dr hab. Dorota Domalewska, War Studies University, Poland

dr hab. Grzegorz Gudzbeler, University of Warsaw, Poland

dr hab. Marek Górka, Koszalin University of Technology, Poland

dr hab. Danuta Kaźmierczak, Pedagogical University of Cracow, Poland

dr hab. Krzysztof Krakowski, Gen. T. Kosciuszko Military University of Land Forces, Poland

dr hab. Mateusz Kuczabski, War Studies University, Poland

dr hab. Jarosław Solarz, War Studies University, Poland

dr hab. Ilona Urych, War Studies University, Poland

dr hab. Barbara Wiśniewska-Paź, University of Wrocław, Poland

dr Jakub Bieniek, War Studies University, Poland

Organizing committee

dr Przemysław Gasztold, War Studies University, Poland

dr Małgorzata Gawlik-Kobylińska, War Studies University, Poland

dr Marcin Mazurek, War Studies University, Poland

dr Joanna Przybylak, War Studies University, Poland

dr Anna Werner Maliszewska, War Studies University, Poland

dr Marzena Żakowska, War Studies University, Poland
